Changing a federal constitution is a complex and challenging process. It requires the consent of a majority of the constituent units, as well as the approval of the central government. In some cases, it may also require the approval of the people in a referendum.

Despite the challenges, federal constitutions have been changed many times over the years. These changes have been made for a variety of reasons, including to respond to new challenges, to improve governance, and to promote greater democracy.

In this book, we explore the process of changing federal constitutions. We draw on a wide range of international case studies to provide valuable insights for policymakers, scholars, and practitioners.

The Process of Changing Federal Constitutions
